

To whom it may concern

July 1st, 2011

Dr. Rostyslav Bubnov
is nominated as

**National Representative in Ukraine of the European Association for Predictive,
Preventive and Personalised Medicine (EPMA) and
Coordinator of the regional EPMA-BOARD in Ukraine**

Herewith is summarised the important information about this nomination:

1. The award “National Representative” means that Dr. Rostyslav Bubnov is the main coordinator of all EPMA-related activities in Ukraine in the field of Predictive, Preventive & Personalised Medicine (shortly PPPM).

The group of the National Representatives is the key-element in the structure of the Association which consolidates and coordinates the EPMA-related activities at the national level closely working with all PPPM-related national institutions, units and groups such as Federations of Patients, Universities, research units, state and private hospitals, industrial groups, political representatives, insurance, etc. The group of National Representatives considers the problems which EPMA challenges in realisation its objectives in single national health care systems.

2. The Statutes, Objectives and Mission of the Association are given at the website: www.epmanet.eu

3. The entire concept and the visions of its further development, as well as the current state of the art in this emerging field, is presented in the worldwide pioneer book *[Predictive Diagnostics & Personalized Treatment: Dream or Reality](#)*, O. Golubnitschaja (ed.) released by Nova Science Publishers, New York 2009.

4. Global forum to overview the PPPM-related issues is performed by *The EPMA Journal* (Springer).

With kind regards

Prof. Dr. Olga Golubnitschaja
